## Reader's Opinions

Another great book in this series 5 Stars!Each book in this series has been well written. The plot, the characters pull you in and keep you going until you done with the book. A excellent author with a great concept for an alien love story. Just the right combination of love, adventure and excitement.

Jalek my favourite Olodian so far!Another great book, another great heroine and another very hot alien. I love the premise that mistakes are made and fate lends a hand in bringing these couples together.Well paced and the writing and fluidity just keep getting better.Thank you
